OMG Unveils its New Online Based Medical Billing & Coding Consulting System

For Immediate Release (11/29/2004)

We at Outsource Management Group, LLC are happy to announce that we have added an online consulting service to our professional services to assist medical billing and coding colleagues, as well as physician's who have their own in-house billing staff with tough billing, coding, compliance and management questions.

Have you ever had trouble finding the correct code for your claim?
Have you seen an increase in denied claims?
Have you had trouble filling out your claim forms properly?
Have you ever had trouble finding the correct modifier to use?
Have you ever had any HIPAA concerns or issues?
Do you need assistance with the correct usage of CPT, ICD9 or HCPCS codes?
Have you ever said, "I wish I could ask someone these questions and get the correct answers"?
Now You Can!

If you or your office has ever had any these concerns, then Outsource Management Group, LLC can help! You just ask and we answer.

Our staff of certified billing and coding experts is available for online consulting to assist you with any billing, coding, and HIPAA or management issues that you may encounter.
For a small fee Outsource Management Group, LLC will assist your office with all of the billing and coding concerns that can arise during your daily operations, and do so in complete privacy.
